

ADVANCED DIRECTIVES

An advanced directive speaks for you if you are unable to speak and helps assure that your religious and personal beliefs will be respected. It is useful for an adult of any age to plan for future health care needs.

Although The Pain and Surgical Center of Langhorne does not honor advance directives, upon request we will provide you with contact information and forms to assist in writing an advance directive.

Information can also be obtained at: (717) 783 8975

www.aging.state.pa.us

You may also contact your local area office on aging.
